

A university to live in

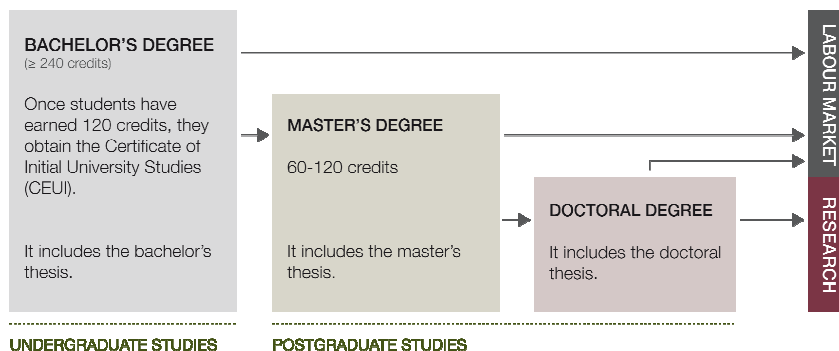

- UPV is a Public Technical University with over 35,000 students
- 2,600 members of teaching and research staff;
- 1,900 administrative and services staff.

UPV offers 40 degrees and double degrees, almost 80 master's and double master's degrees, and almost 30 doctorates, all meeting demanding quality standards.

The UPV is one of the 3 first Spanish universities in sending and hosting students.

- The UPV has signed agreements with 949 different universities. Thanks to this, students can spend one or two semesters in one of 49 countries around the world.

The UPV offers all its students rooms for the **creation of startup companies**, located in each of the schools and faculties.

Additionally, there is also a Start **UPV Entrepreneur Space**, located at the Student Centre (Casa de l'Alumne).

And those successful companies that are linked to the UPV are housed in the **Innovation Centre**.

The UPV is among the top Spanish universities regarding the revenues collected due to **competitive research**.

It is also Spain's leader as far as **patent exploitation** is concerned.

The **Polytechnic City of Innovation** (CPI) comprises 140.000 m², where 1.600 scientists and 400 supporting people work.

The most advanced **institutes and technological centres** are located there.
